Logo

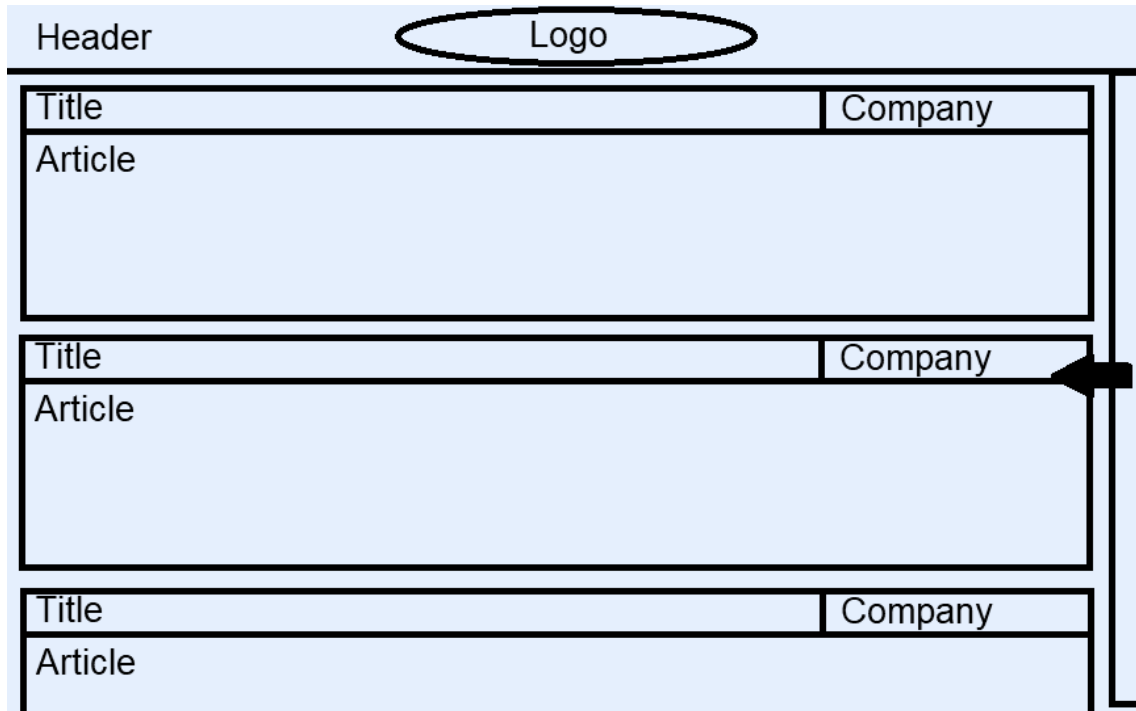

Our Website's logo.

Main Page

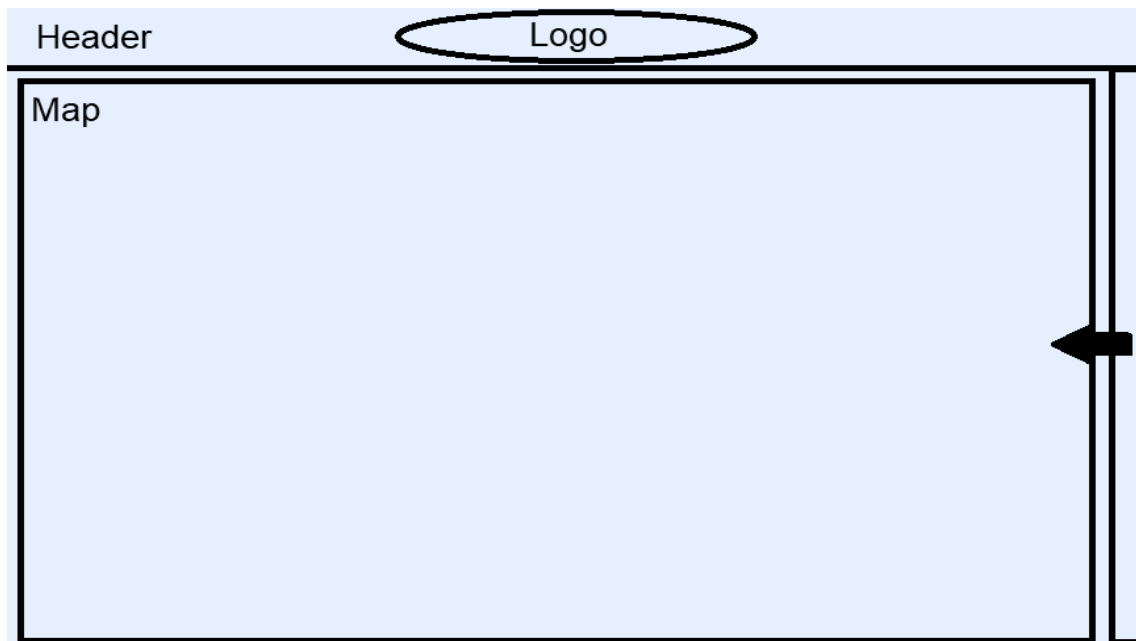

The Main Page of our Website. It displays relevant news and posts with their images attached. On the right side, a retractable Menu exists to allow the users to move to the other pages of our Website.

Companies' News Page

This page allows Companies to share relevant content about what they are doing in order to reduce/stop Oil Spills from happening again.

Oil Spills Map

This page utilizes a map to inform the user of the location and other information about current and past Oil Spills.
